

# Good To Go! Moveable Pass

## Installation Instructions

### Welcome to Good To Go!

**Good To Go!**<sup>™</sup> electronic tolling is the fastest way to save money on all toll roads in the state of Washington.

Auto replenishment is the best way to ensure your **Good To Go!** account never runs out of money. It's easy to set up your **Good To Go!** account so that your bank account or credit card is automatically charged with a preset replenishment amount when your account balance gets low. You will receive a monthly email with a link to your account statement, and can check your most recent account activity online or by phone at any time. With auto replenishment you're always **Good To Go!**

**Good To Go!** Moveable Pass

#### 1 Clean:

Clean and dry the inside of the windshield with rubbing alcohol or windshield cleaner.

#### 2 Position:

Position your **Good To Go!**<sup>™</sup> Moveable Pass on the inside of the front windshield in an area near the rearview mirror as shown in the illustration. **The pass should be placed below any metalized sun strips or visor tints.** The top of your pass should be no more than 5" below the roofline of the vehicle. If you choose to place the pass behind your rearview mirror it must be at least 2" below the mirror stem.

**NOTE:** The windshield on a small number of vehicles are metalized throughout and will need a different type of pass. If you have this type of windshield, contact the Customer Service Center: 1-866-936-8246.

#### 3 Stick:

Before separating the pass from the Velcro<sup>®</sup>, peel off the protective backing from the Velcro and place the pass anywhere in the regions indicated in the illustration. To ensure a tight seal, use your thumb to firmly press each side of the pass against the windshield for 15 seconds before attempting to remove the pass. Once secured you can remove the pass and the Velcro back will remain on your windshield.

#### Mounting in Multiple Vehicles

Additional Velcro backings for sharing the pass among multiple vehicles are available through the Customer Service Center.

Detach the pass from the windshield of vehicle A. Attach your additional Velcro backing to the strip of Velcro that is already adhered to the pass. Then attach the pass to the windshield of vehicle B following the directions in steps 2 and 3.
